P.E.T. LANYARD

BAMBOO LANYARD

## EARTH-FRIENDLY ECO-WEAVE™ LANYARDS

### BAMBOO LANYARD

Due to its fast growth, bamboo is one of the earth's most sustainable resources. It is a cellulose fiber that is easily broken down in the soil... preventing environmental pollution. Made from 100% bamboo, this new lanyard is comfortable to wear, strong, durable and naturally anti-bacterial.

AND...

### P.E.T. LANYARD

Made of 100% PET (Polyethylene Terephthalate) recycled plastic with recycled wide plastic hook and safety break-aways. Recycled plastic means less petroleum — a finite commodity — is consumed.

Choose from five colors made with plant base dyes or a dye-free natural material. Lanyards are available in stock unprinted or custom printed with water based inks.

BLACK	RED	PURPLE
NAVY BLUE	FOREST GREEN	NATURAL

## EARTH-FRIENDLY BADGE HOLDERS AND STRAP CLIP

Our most popular strap clip and badge holders are now available in earth-friendly materials. They are made with PVC-DOP (Phthalates free - Dioctyl Phthalate)... a material that is fully recyclable and prevents contamination to our environment. Call for more information about products and availability.

## CORNCARD™ PLASTIC CARD

CornCards™ (NatureWorks® PLA) are manufactured from corn, an abundant and renewable domestic resource. Unlike petroleum-based cards, corn-based cards can be composted and won't release toxins when burned. These credit card (CR80) size 30 mil video grade cards are virtually identical in look, feel, and quality to PVC cards.

CornCard™ is a trademark of Arthur Blank & Co.
